

Happy Holidays to all of our DFPC Clients and Friends,

We hope that these holidays find you healthy and safe and that 2021 will bring us all an easier, stress free year. This holiday season I have decided to give my team a much deserved gift of time, more time to spend with family, to spend pampering themselves and more time to relax. This means that we will be closed for a few extra days at Christmas and at the New Year. Specifically, we will be closed Thursday, December 24 through Sunday, December 27 and also closed Thursday, December 31 through Sunday, January 3.

We will be open our regular hours on Monday, Tuesday and Wednesday of those two weeks. I hope you all understand and will continue to be thoughtful and kind as we work tirelessly to help our patients now and throughout the year.

We will be opening back up on Thursdays starting the first full week of January. (Open Monday through Saturdays) We know how difficult it has been to schedule appointments and we are hoping this will help. We are still curbside, so this means appointments last longer and we still can't see as many patients per day, but our team has now increased back to our pre-Covid19 numbers, and we are able to be open for our pre-Covid19 schedule. Our hope is that someday we will be able to see all of our clients back inside our hospital, but until it is safe to do so, we will continue our current protocols to keep our team and our clients safe.

Thank you so much for entrusting your precious fur babies to our care. We truly love each and every one of them. Let's spread holiday cheer, love and kindness throughout our community!

Sincerely yours,

Cheryl Good, DVM
Medical Director, Dearborn Family Pet Care
